**Studio**  
**2011-∞**  
Owner, LLC  
Multi-disciplinary design studio segmented into three categories: Transport, Stasis, and Couture. Capabilities include industrial design, 3-d visualization, 3-d printing, model making, silk-screen printing, and industrial sewing. Work with clients as a personal designer to solve problems with the most cost-effective, elegant solution available.

**Polaris ID 2009-2010**  
Senior Designer  
Work included buyer research, sketch ideation, 3-d visualization, and model construction on both future concepts and production prototypes. Worked on a wide range of vehicle types including: motorcycle, snow-mobile, atv, sidexside, 3-wheel, tracked vehicle, etc. Exhibition design. Full scale clay model. Field testing.

**Honda R&D 2013**  
Contract Modeler  
Work included full scale clay modeling on exterior and interior concept vehicles. Alias modeling for interior of show vehicles and small production parts. Cubicle survival skills honed.

**Honda Advanced Design 2014**  
Vendor  
Special project intended to target future markets of 2040. Market research and logic defined a vehicular solution unique to a whole new process of manufacturing. Delivered a native html5 presentation and 1/4 scale model.

**Dead or Alive 2015-2017**  
Co-Owner/Operator  
Boutique beer and wine bar located in Palm Springs California. Complete design: layout, furniture, signage, lighting, glassware, print collateral, menus, website, and atmosphere. Responsibilities extended to Artisanal Beer research and ordering, training and management of employees, equipment maintenance.

**BMW Group Designworks 2016**  
Contract Modeler  
Developed and delivered aesthetically correct, production ready surface models working with lead industrial designers on both interior and exterior projects. Surface and polygonal modeling. Re-topologized models for visualization purposes. Full scale prototypes.

**Software/Other**  
Alias Studio tools  
Autodesk Maya  
Solidworks
